Arrival of the guests

The day begins in a relaxed yet festive manner with a delightful cup of coffee or tea, accompanied by macarons—a sweet treat to enjoy. For the children, a refreshing lemonade bar will be available, where they can pour their own lemonade or fruit-infused water.

Reception

After saying “I do,” it’s time to toast to your brand-new marriage with a festive glass of prosecco or champagne. Following the toast, your wedding cake can be cut and served.

Drinks & Socializing

After the cake-cutting, guests can enjoy drinks—an ideal moment for group photos. If the weather is good, drinks can be served on the Groote Museum terrace, and beautiful wedding photos can be taken in ARTIS Park. During the reception, a selection of Dutch beverages will be available, along with luxury table garnishes and a variety of appetizers served by our staff.

Experience ARTIS

ARTIS-Park

ARTIS-Park is a place where nature, culture and heritage come together. Every tree, every animal, every building, every planet has a story to tell. ARTIS has been sharing their stories since 1838, and every day they are born anew. Experience the wonder and beauty of ARTIS-Park for yourself.

ARTIS-Groote Museum

ARTIS-Groote Museum is the museum that asks the big questions. Why do I exist? And what makes me different from a gorilla, or a wood violet? Am I really that different? We all have many and varied questions. It is by remaining curious and continuing to ask questions that we discover the reality that we are all deeply connected with the nature around us. Make your visit even more special with a short introduction or a themed talk of around 15 minutes to help your guests get to know the ARTIS-Groote Museum.

ARTIS-Micropia

You don't see them, but they are there. They are on you, in you, and you alone have more than a hundred thousand billion of them. Microbes, the smallest and most powerful organisms. When you take a closer look at the world, a new one opens up to you. More beautiful and remarkable than you could ever imagine. Discover the invisible world of micro-organisms at ARTIS-Micropia. Make your visit more memorable with a short introduction by one of the lab technicians to help visitors get to know ARTIS-Micropia.

Enhance your visit

Be inspired by a talk on animals, plants, microbes or historic buildings, or be taken on a journey through the universe in the ARTIS Planetarium.
